

Work notice

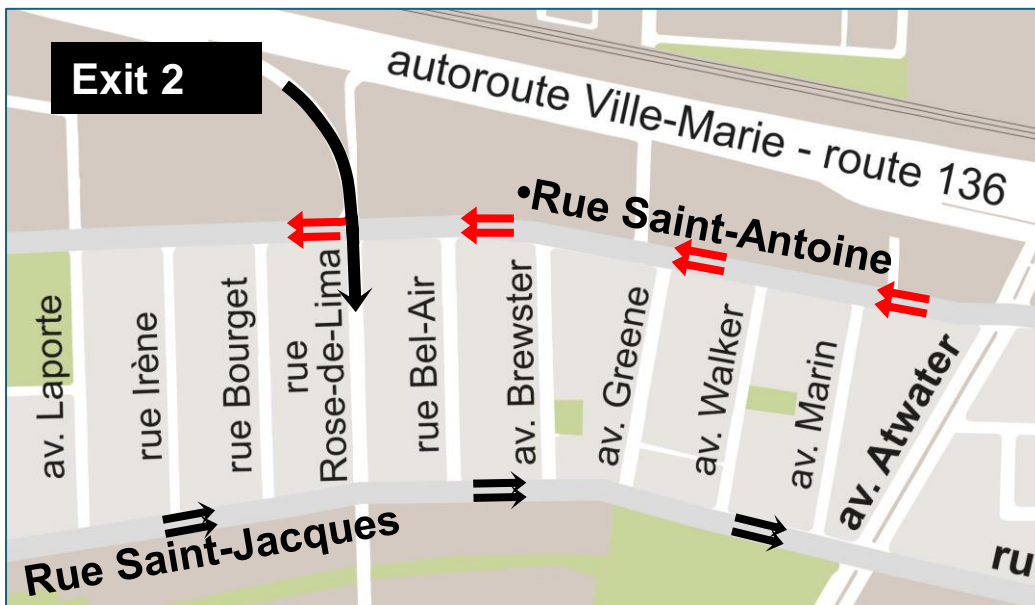

Beginning December 12, 2024

Major traffic changes

On Rue Saint-Antoine and Rue Rose-de-Lima

Return to normal direction of traffic

Beginning December 12

→ New direction
→ Direction maintained

Traffic

With the arrival of winter and the end of work on Rue Rose-de-Lima, major changes to traffic will be made in the area.

Rue Saint-Antoine

- The construction site between Rue du Convent and Rue Sainte-Marguerite will be on break during the winter. All obstructions will be removed and parking restrictions will be lifted.
- Construction will resume in the spring of 2025 between Rue Sainte-Marguerite and Rue De Courcelle. A notice informing you of the details will be distributed before the project resumes.

Rue Rose-de-Lima

- All construction is complete between Rue Saint-Antoine and Rue Notre-Dame Ouest.
- The street will completely reopen to traffic beginning December 12.

Summary of construction on Rue Rose-de-Lima

Construction on Rue Rose-de-Lima from Saint-Antoine to Notre-Dame Ouest has been completed. Construction on Rue Sainte-Émilie and Rue Rose-de-Lima between Notre-Dame Ouest and Sainte-Émilie was completed in July 2024.

The aim of this \$12.7 million project is to upgrade waterworks, sewers and roads; green certain street sections and replace lead water service lines. In addition, a two-way bike path now connects Rue Rose-de-Lima to the Express Bike Network (EBN) on Rue Saint-Antoine and Rue Saint-Jacques.

Achievements

- Replacement of the existing waterworks system
- Full road repaving
- Full sidewalk reconstruction
- Lighting and traffic lights
- Creating pits for tree planting
- Replacement of lead water service lines
- Replacement of the existing sewer (Rue Rose-de-Lima, from Rue Saint-Jacques to Rue Notre-Dame Ouest);
- Development of a two-way bike path.

Thank you!

Le Sud-Ouest thanks you for your collaboration throughout the construction project. To learn more about construction near you, visit the [info-entraves map](#) on [montreal.ca](#)
