

How to use your bin properly

- 
- 1 Place the bin 60 cm from any object without overstepping on the street, sidewalk or bike path.
- 
- 2 Place the bin on your property, at the side of the street or accessible lane, as of 8 p.m. on Tuesdays and for 7 a.m. on Wednesdays.
- 
- 3 Leave the bin closed.
- 4 Do not overfill the bin.
- 
- 5 Do not place objects on the bin lid.
- 
- 6 Outside the collection period, store the bin so that it's not visible from the street.
- 
- 7 In winter, clear snow from the lid and place the bin so that it's visible and accessible, without interfering with snow removal operations.
